Subject: City of Dinuba - 2025 Corridor Improvements Project

Good morning Jason,

We have a couple questions regarding the project mentioned above.

El Monte Way Sta: 72+50 – 97+50 (Sheets L9 - L14)

The proposed work for curb & gutter and the sidewalk on the North side of the road does not have design grades available. Will design grades be provided to show the improvements?

El Monte Way Sta: 72+50 – 97+50 (Sheets L9 - L14)

Plans show a hatched area within the roadway as if there will be work done for the AC sections, but the plans do not provide a legend or details for this work area. Can details be provided for the AC sections, and will the proposed sections have design changes to the new elevations?

Thank you,

Bobby Watkins
