Subject: RE: City of Dinuba - 2025 Corridor Improvements Project

On sheet 97 of the addendum plans, there is a callout #23 around ~ STA 55+67, however the legend does not provide callout #23. Please provide clarification for callout #23.  
  
Sheets 97 – 102 has hashing marks in the roadway, which is not provided in the legend. Please provide an updated legend and description of work in these areas.  
  
Within the specifications provided through addendum 1, page 34 bid item description #121 does not correlate with the typical order of work. Bid item 121 is for **SIGNING, PAVEMENT STRIPING, AND MARKING** however the description describes worker protection from caving ground. Please provide clarification.

Thank you,

Yes! That one was able to go through. I have 109 pages of plan sheets, is that inclusive of Plans Part 1 & Part 2?

Thank you,

**Bobby Watkins**

Try the last addendum I just uploaded. It is just a link to download the plans. Let me know if that works.

Try to download the plans again. I just downloaded the plans as a bidder just fine. I would recommend restarting your computer or just trying again.

Hi Jason,

In addition to the previous email I sent this morning, we believe the amount of changes that have been made to this bid that there is not enough time to complete a thorough bid. The City will receive a more cost efficient bid if contractors have more time to bid this.

Can the City consider a new bid opening of November 26<sup>th</sup> or December 2<sup>nd</sup>?

Thank you,

**Bobby Watkins**

Subject: City of Dinuba - 2025 Corridor Improvements Project

Good morning Jason,

I see addendum 1 is available on the **Virtual Bid** website, however **Addendum #1 Plans Part 1 & Addendum #1 Plans Part 2** are not able to be downloaded. The website gives a server error notification for both plan files. The **Addendum #1** file was able to download successfully. Is there another way of obtaining these official files?

The screenshot below reflects what I am seeing when attempting to download the two files I am referring too.

Thank you,

**Bobby Watkins**
