Jason,

Another question: Add Alt 6 is the only schedule without a "Water Pollution Prevention &amp; Dust Control" item. Do we include this scope of work into the Misc Facilities item?

Thanks

Hello Again Jason,

One more thing I found this morning. Bid Item 73 has a quantity of 10,535 SF. The quantity shown on plan sheet AA6 the quantity shows 19,633 SF.

Jason,

I have a few more questions:

- On the Base Bid El Monte Grind and Overlay and on AA6 but show a 2" grind and a 3" HMA overlay. Are we to leave the new HMA 1" above the lip of gutter?
- On AA2, AA3 and AA5 if the existing AC is thicker than 2" and we are directed per the note to remove to the full depth of the existing asphalt. Will we paving it back at the existing depth or the section shown on the plans. Will we be compensated to bring in additional aggregate base to make up for the additional asphalt remove?

Thank you,

Dan Dorval

Jason,

We are still going thru Addendum 1 but have found a few questions:

- Bid Item 48 for the RRFB (Page 15 of Addendum 1) references Section 28 of the Specifications. But Section 28 is not in the addendum or in the original specifications.
- AA#2 plan sheets questions
  - Page AA6 - Demolition Notes 3 & 4 are to Remove & Relocate the Existing Fence and Rolling Gate. I do not see on the plans their new installation location.
  - Page AA6 - Demolition Note 6 "Remove & Relocate Existing Guy Wire" - Will this be done by the Utility Company?
  - Page AA7 - Reference is made to "See Detail D4, Sheet AA33" - There is no detail on sheet AA33.

Thank you
