Jahmarra/Jason,

8. The demo sheets show full asphalt and baserock removal as 15.5". Sheet X1 shows a Kamm full replacement as 3" HMA over 8" agg. Base and sheet X2 shows College full replacement as 4" HMA over 5" thick agg. Base. Please clarify the structural section of the full depth removal and replacement.

Jahmarra/Jason,

6. (60) Working Days will not be enough time for this project. Please reconsider for (120) working days.

7. Is there any information or core samples taken to verify the actual structural section of asphalt thickness at varying locations?

Thank you,

Alan Johnson

Jason,

5. For bid item #42 Paving Reinforcing Mat, please provide details on the specifics of: locations and specs. to identify if it is your intent to install a 25kN or 50Kn paving mat?

**Subject:** Questions - 2025 Corridor Improvements Project

Questions - 2025 Corridor Improvements Project

1. Please clarify what concrete is being considered for BI#33 'Construct Concrete'.
2. Is there an intended start date for this project? Depending on the answer, winter paving and/or labor/material escalations need to be considered.
3. What is the engineer's estimate?

Thank you,

Alan Johnson
